

CENTRAL BOARD OF SECONDARY EDUCATION

CBSE Integrated Office Complex, Sector-23, Phase - 1, Dwarka New Delhi - 110077

REVALUATION APPLICATION - FINAL SUBMISSION

Candidate Details							
Name		HARSH VARDHAN SHUKLA					
Roll Number		23695465					
Class		12					
Application Date		03 Jun 2026, 08:19 PM					
Application Type		Re-Evaluation					
Transaction Details							
Transaction ID		UP741PQY7S0QM6TERQOQ					
Payment Status		SUCCESS					
Payment Date		05 Jun 2026, 04:00 PM					
Payment Mode		UPI					
Revaluation Details							
Subject Code		Subject Name		Exam Type		Questions	Fee (₹)
043		CHEMISTRY		Main Exam		16	₹400
Total							₹400
Question Details							
Exam Type	Subject Code	Subject Name	Q. No	Page No	Marks Obtained	Marks Claimed	Reason
Main Exam	043	CHEMISTRY	17	8	0	1	Dear Sir/Mam I have written that boiling point will decrease also mentioned in marking scheme as well as defined Raoults law ,ideal non ideal situation made graph of positive and negative deviation. Please grant partial marks here.
Main Exam	043	CHEMISTRY	18	9	0	1	In part a Silveranido matches with the making scheme In part b Potassium also matches with the half ans of marking scheme.

Question Details							
Exam Type	Subject Code	Subject Name	Q. No	Page No	Marks Obtained	Marks Claimed	Reason
							Kindly i request you to please grant partial marks in both part.
Main Exam	043	CHEMISTRY	19	10	0	1	The answer states electronic changes of the ring, concluding that "Haloarenes becomes less negative. This directly relates to the altered electronegativity, electronic environment, and polarity of the carbon-halogen bond. Requesting a lenient partial mark for this conceptual explanation attempt.
Main Exam	043	CHEMISTRY	20	11	0	1.5	Written that no change will be there in order and volume is reduced which also mentioned in marking scheme.Please grant marks here.
Main Exam	043	CHEMISTRY	21	12	0	1	In Part A ph is related to acidity and basicity. Correctly identifies relationship between amino acid and their pH nature (low pH for acidic and high pH for basic). Part B Identified main sugar and phosphate but slightly swapped.
Main Exam	043	CHEMISTRY	22	13,14	0.5	1.5	Part A For compound, I have successfully drawn a valid open chain structure isomer for molecular formula C_4H_9Br . Part C Written inversion concept.

Question Details							
Exam Type	Subject Code	Subject Name	Q. No	Page No	Marks Obtained	Marks Claimed	Reason
Main Exam	043	CHEMISTRY	23	14,15	0	1	By mistake written qus 24 but it is qus 23 Part A Identified correctly that in reaction NaOH is aq. and primary reagent needed to carry out base catalyst reaction.
Main Exam	043	CHEMISTRY	24	16	0	1	Qus 24 Part C Identified nature of the medium is what actually stops the reaction . Strong acidic medium blocks reaction path way. Please grant marks here.
Main Exam	043	CHEMISTRY	25	17	0	1	Qus 25 Part C Concept of glycogen associated with polysaccharide understanding of linkage exist. please grant partial marks here.
Main Exam	043	CHEMISTRY	26	18,19	0	3	On page 18 and 19 I have clearly mentioned - Correct formula application, Correct use of given values logical substitution, Mathematical simplification and Steps and Answer matches with official marking scheme. Kindly request you to please grant marks.
Main Exam	043	CHEMISTRY	27	19,20,21	1	2.5	Part B Wrote ""A""and identified it. Also present in marking scheme that Metal A is the right answer. part C Wrote right equation.
Main Exam	043	CHEMISTRY	28	21,22	0.5	2	On page 22, I have written correct formula for both the Vont hoff factor

							association and dissociation elevation in boiling point delta TB. Steps were clearly mentioned but there was error in final answer due to wrong value of ""I""please grant partial step marks.
Main Exam	043	CHEMISTRY	30	23,24	0	1.5	Part B Structural formula for intermediate A ""ch3nh2"" Is correctly derived and written requesting a partial marks for intermediate compound A. Part A and C For attempting the rule.
Main Exam	043	CHEMISTRY	31	27,28,29	1	3.5	For Ecell=3.17 I found right value marking scheme provide one marks but I got 0.5 marks for it. Written right formula for delta G and answer is also almost similar to marking scheme.
Main Exam	043	CHEMISTRY	32	25,26	0	2	Part A(i) Structure attempted fits the c5h10o formula and in secondary step explicitly shows reaction with iodine to address the postive Iodoform test. Part A(ii) Clear structural drawing attempted on page 25 to address the multi-conditional test constraints. (Tollens and aldol). Part A (iii) An organic structure containing an oxygen-bearing functional group was drawn on page 25 to meet the isomer criteria. Part B Though the
